Forward-Looking Statements

Safe Harbor

This presentation includes forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. They are not guarantees or assurances of any outcomes, financial results of levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this presentation. The factors that could cause actual results to differ, including uncertainties, risks and other factors associated with the current novel coronavirus (COVID-19) pandemic, are discussed in the Appendix to this presentation, and in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2020, as filed with the SEC on May 6, 2020.

Non-GAAP Financial Information

This presentation includes non-GAAP financial measures. Further information regarding these non-GAAP financial measures, including a reconciliation of each of these measures to the most directly comparable GAAP measure, is included in the Appendix to this presentation.
American Water’s COVID-19 Response

**Employees**
- Suspended all work-related air and rail travel as of March 3 & suspended participation in sponsored events and public gatherings
- Employees who can work from home have been required to do so effective March 16; as of now, that plan will continue through September 7th
- Implemented social distancing and enhanced safety measures for employees
- Paid leave for COVID-19 diagnosis, required quarantine and childcare

**Customers**
- Suspended billing-related service shutoffs and restored service to customers who were previously shut off for non-payment
- Suspended payment of late fees until further notice
- Working with customers who are experiencing a financial hardship by offering customer assistance programs and access to low income programs
- Implemented social distancing and enhanced safety measures for employees who engage with customers

**Regulatory & Liquidity**
- Implemented actions to ensure liquidity and access to capital
- Increased communications with public service commissions, customers, and public officials

**Communities**
- Donated $500,000 to the American Water Charitable Foundation to support COVID-19 relief efforts
- The Company together with American Water Charitable Foundation donated a total of $100,000 to Feeding America to help food banks across the country

The industry leader

- Trusted Source of everything water
- “Best in Class” execution of business fundamentals
- Highest in customer satisfaction
- Set the bar for water quality, water source monitoring, and water technology across US
- Proven and predictable financial performance and growth
We are the Largest and Most Geographically Diverse Water Utility in the United States

American Water customer connections mix – 93% water & 7% wastewater

Clear investment thesis provides confidence in long-term strategy

- **Decades** of investment needed
- **Line of sight** to $20 - $22 billion of 10-year capital investment
- **Fragmented** national water and wastewater landscape
- **Capital-light** MBBs leverage core competencies, increase customer experience, and generate cash
- **2020-2024 Dividend Growth** projected at high end of 7-10% range**
- **A leading** Environmental, Social Responsibility and Governance investment

*Anchored off of 2018 Adjusted EPS (a non-GAAP measure)  **Subject to American Water Board of Directors approval
Investment Thesis
The Regulated Industry We Operate In...

- Approximately **50,000** water systems, **15,000** wastewater systems
- By 2020, **44%** of U.S. pipe infrastructure to be classified as poor, very poor, or life elapsed...
- In the U.S., over **20%**—or **2 trillion gallons**—of treated water is lost each year...
- **900 billion gallons** of untreated sewage is discharged every year into U.S. rivers, streams and other waterways...

**Critical need for multi-decade investment**
Diversity Gives Us Key Competitive Advantages

National regulated footprint provides regulatory and geographic diversity
To Serve Our Regulated Customers, We Have...

ASSETS
as of December 31, 2019

- 52,500 miles of pipe
- 600 water treatment plants
- 1,000 wells
- 140 wastewater facilities
- 1,300 water storage facilities
- 1,500 pumping stations

Disciplined Focus on Expenses

- **2024 O&M Efficiency Target of 31.3%**

- Adjusted O&M Expenses from 2010-LTM 2020 increased only 0.7% CAGR

- Added ≈276,000 customer connections since 2010

---

* Non-GAAP Measure – See appendix for reconciliation. O&M Efficiency Ratio = Adjusted Regulated O&M Expenses (O&M Expenses is most comparable GAAP measure) / Adjusted Regulated Operating Revenues (Operating Revenues is most comparable GAAP measure). This calculation assumes purchased water revenues approximate purchased water expenses. Also, 2010 – 2016 adjusted for TCJA

** A reconciliation to a most comparable forward-looking GAAP measure is not available without unreasonable effort

*** Includes organic customer connections & closed dispositions
Timely Recovery through Regulatory Mechanisms

ESG Focus
Our ESG Philosophy

Companies Do Well by Doing Good

Values matter

The “how” is just as important as the “what” for long-term financial sustainability

Water is the most precious resource for life. We aren’t just a water utility; we’re in the health and safety business

How we implement ESG principles

• Keeping employees safe and injury-free, and developing each person to his or her fullest potential

• Being a leader in environmental sustainability, caring for the planet, and leading the nation in outstanding water safety and quality

• Delivering the best, most personalized customer service with empathy and care

• Making communities better because we’re there; and being transparent, accessible and well-governed for our shareholders
“E”: Environment

**Energy Use**

- **GHG emissions**: Goal of reducing 40% by 2025 from 2007 baseline, after achieving approximately 31% reduction through 2018

- **Design for efficiency**: enhanced pump, lighting and process design standards

- **Construct for efficiency**: sustainable construction standards and methods

- **Operate for efficiency**: enhanced best operating practices, leak detection and repair procedures

- **Maintain for efficiency**: computerized maintenance management systems and preventive maintenance systems

**Water Use**

- **San Clemente dam**: Deconstruction to restore “run of river”

- **Monterey Peninsula Water Supply Project**: Recycling, reuse and desalination using marine life friendly slant wells

- **Customer conservation**: residential customers have saved about 1,100 gallons per customer per year—or 3.3 billion gallons annually, about 12.5 million cubic meters—through conservation and efficiency measures

**Water Policy Leadership**

- **Capital investment**: Expect 10-year $20.0 billion to $22.0 billion total capital investment to address aging infrastructure, reduce/eliminate leaks, improve cyber/physical security, and increase resiliency of critical assets due to climate variability

- **Research & Development**: scientists dedicated to research and partnering with water research foundations, on water quality and technology-water source monitoring

- **Collaboration**: EPA, CDC, state DEPs and other agencies to support effective environmental, health and safety, and water quality standards and regulations
“S”: Social Responsibility

Our People

- **Training**: During 2019, nearly 96,000 hours of annual employee safety training
- **Employee engagement**: Frequent surveys with formalized employee action teams
- **Frontline employees**: driving technology development
- **Diverse job candidate pools**: During 2019, 86% of job requisitions had a diverse candidate pool, with more than 57% of transfers/promotions filled by minority, female, veteran or disabled individuals
- **Culture**: Diverse, inclusive culture characterized by respect and dignity of every employee

Our Customers

- **Customer data protection**: we do not share or sell personal customer data
- **Technology development**: ensuring a personalized positive experience
- **Customer satisfaction**: Top Quartile in the water industry
- **Online communities as of 5/2020**:
  - 10,385,051 views
  - 101,857 fans
  - 32,802 followers
  - 22,458 followers

Our Communities

- **Community service**: More than 5,000 hours in 2019 for company-sponsored events
- **Charity support**: Sponsored national workplace giving campaigns with the United Way and Water For People, as well as supporting our employees’ own charitable endeavors through the American Water Charitable Foundation
- **American Water Charitable Foundation**:
  - Union sportsmen’s alliance projects
  - Parks partnerships projects
  - Employee match program
  - Keep Communities Flowing

Our Customers

- **Our Customers**
  - 101,857 fans
  - 32,802 followers
  - 22,458 followers
“G”: Governance

**Board & Committee Structure**

- **Ensuring independence**: board is led by an independent, non-executive chair
- **Safety, Environmental, Technology, Operations (SETO) Board Committee**
- **Engaging board sufficiently**: board met 12 times in 2019
- **Board engages directly with front-line employees**: Off-site board meetings twice a year, external stakeholder receptions, dinners and meetings with “high potential” leaders periodically
- **Engaging investors**: robust program for management and board engagement

**Diverse**

- **Achieving gender parity**: One of 10 S&P 500 companies with at least 50% female Board members in 2019
- **45.5% female board members as of April 2020**
- **Average director tenure was approximately 5.5 years as of April 1, 2019**

**Demonstrated & Representative Expertise**

- **Utility experience and expertise**
- **Internationally recognized cyber security expert**
- **Financial expertise**
- **Retired CEO experience**
- **Operational and manufacturing experience and expertise**
- **Global experience**

Forward-Looking Statements

Certain statements in this presentation, including, without limitation, with respect to: long-term earnings growth; dividend amounts, growth and payout ratio; the timing and outcome of pending or future acquisition activity and the completion of the announced sale of New York American Water Company, Inc.; the Company’s future financial performance, liquidity and cash flows; the Company’s ability to finance current operations, capital expenditures and growth initiatives by accessing the debt and equity capital markets; the impacts to the Company of the current pandemic health event resulting from the novel coronavirus (COVID-19); the amount and allocation of future capital investments and expenditures; estimated revenues and regulatory recovery from general rate cases and other governmental agency authorizations, including filings for infrastructure surcharges and to address regulatory lag; estimates regarding the Company’s projected rate base, growth, results of operations and financial condition; the projected growth and size of the regulated businesses; the potential growth, size, income and cash flows of the market-based businesses (individually or in the aggregate); the ability to capitalize on existing or future Homeowner Services Group utility partnerships and Military Services Group utility privatization opportunities; the Company’s projected regulated operation and maintenance efficiency ratio; trends in the industries in which the Company operates, including macro trends with respect to the Company’s efforts related to customer, technology and work execution; the Company’s ability to execute its business and operational strategy; and regulatory, legislative, tax policy or legal developments, including projected impacts of the Tax Cuts and Jobs Act (the “TCJA”), are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. In some cases, these forward-looking statements may be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could” and or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results of levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this presentation as a result of the factors discussed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2019, as filed with the SEC on February 18, 2020, and subsequent filings with the SEC, and because of factors including, without limitation: the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates and regulatory responses to the COVID-19 pandemic; the timeliness and outcome of regulatory commissions’ actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting and other decisions; limitations on the availability of the Company’s water supplies or sources of water, or restrictions on its use thereof; changes in laws, governmental regulations and policies, including with respect to environmental, health and safety, consumer privacy, water quality and water quality accountability, emerging contaminants, public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections; weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and inland flooding, pandemics (including COVID-19) and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares; the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions; risks associated with the Company’s aging infrastructure and its ability to appropriately maintain and replace current infrastructure and systems; exposure or infiltration of the Company’s technology and critical infrastructure systems through physical or cyber attacks or other means; the Company’s ability to control operating expenses and to achieve efficiencies in its operations; the intentional or unintentional actions of a third party, including contamination of the Company’s water supplies or water provided to its customers; the Company’s ability to obtain adequate and cost effective supplies of equipment, chemicals, electricity, fuel, water, other raw materials; the Company’s ability to successfully meet growth projections for its businesses and capitalize on growth opportunities, including its ability to, among other things, acquire, close and successfully integrate regulated operations and market-based businesses, enter into contracts and other agreements with, or otherwise obtain new customers in the Company’s water-based businesses, and realize anticipated benefits and synergies from new acquisitions; the Company’s ability to successfully develop and implement new technologies and to protect related intellectual property; the Company’s exposure to liabilities related to environmental laws and similar matters; changes in general economic, political, business and financial market conditions, including conditions and collateral consequences associated with the COVID-19 pandemic; access to sufficient debt and/or equity capital on satisfactory terms and when and as needed to support operations and capital expenditures; changes in federal or state general, income and other tax laws, including with respect to the TCJA, the availability of tax credits and tax abatement programs, and the Company’s ability to utilize its U.S. federal and state income tax net operating loss carryforwards; and other factors as may be set forth in the Company’s SEC filings.

These and other forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors and cautionary statements included in the Company’s annual, quarterly and other SEC filings, and readers should refer to such risks, uncertainties, risk factors and statements in evaluating such forward-looking statements. Any forward-looking statements speak only as of the date this presentation was first used or given. The Company does not have and does not undertake any obligation to update or to revisit any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the Federal securities laws. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company’s businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.
Thoughts on Implications of COVID-19 Pandemic

- Predominantly residential customer base; Commercial mostly food and beverage providers
- Early trends of increased residential demand; Commercial & Industrial down

Regulated Businesses Operating Revenue by Type and Customer Class as of 12/31/2019

Capital Investment ($ in millions)

- No change to 2020 capital plan expected; increase driven by demand/opportunity
- No major disruptions to supply chain

* Includes water revenues from public authorities and other utilities and community water systems under bulk contracts.
** Includes other operating revenues consisting primarily of miscellaneous utility charges, fees and rents.

How American Water Grows Earnings: Rate of Return Regulation in the United States

Prudent Investment Drives Need for Rate Cases

Establish Rate Base × Weighted Average Cost of Capital = Allowed Return

Allowed Return + Operating Expenses + Taxes, Depr & Amortization = Revenue Requirement

Saving $1 in OpEx vs investing $8 in capital at allowed ROE, Keeps customer rates neutral and accelerates needed investment
How O&M Efficiency Translates to Investment Growth

Saving $1 in OpEx vs investing $8 in capital at allowed ROE, Keeps customer rates neutral and can create $0.39 in sustainable earnings

Total Awaiting Final Order: $233

\(^{(a)}\) The requested increase filed for was $5.6 million, which includes $0.9 million from infrastructure filings. Interim rates were effective on May 1, 2019, under bond and subject to refund.  
\(^{(b)}\) On July 1, the company filed for a Test Year 2021 revenue requirement request of $26.0 million which excludes the escalation year and attrition year rate increases for 2022 and 2023 of $9.8 million and $10.8 million, respectively. The Company filed its 100 day update on October 11, 2019, requesting $27.3 million annualized incremental revenues for 2021, and increases of $9.5 million and $10.3 million in the escalation year of 2022 and the attrition year of 2023, respectively.  
\(^{(c)}\) The requested increase is $87.8 million, which excludes $34.7 million from the DSIC.  
\(^{(d)}\) On April 29, the company filed for a multiyear rate case. Rate year 1 requested $92.4 million with rate base of $3.98 billion and Rate Year 2 requested $46.2 million with rate base of $4.29 billion.

*Rate Base stated in $000s

---

(a) On March 22, 2018, Decision 18-03-035 set the authorized cost of capital for 2018 through 2020. CAW has a separate Cost of Capital case which sets the rate of return outside of a general rate proceeding.

(b) The Rate Base listed is the Company’s view of the Rate Base allowed in the case, the Rate Base was not disclosed in the Order or the applicable settlement agreement.

(c) The Authorized Equity excludes cost-free items or tax credit balances at the overall rate of return which lowers the equity percentage as an alternative to the common practice of deducting such items from rate base.

(d) The equity ratio listed is the Company’s view of the equity ratio allowed in the case, the actual equity ratio was not disclosed in the Order or the applicable settlement agreement.

(e) The ROE listed is the Company’s view of the ROE allowed in the case; however, the ROE was not disclosed in the Order or the applicable settlement agreement.

(f) Interim rates were effective April 1, 2016 and received final Order May 24, 2017.

(g) Interim rates were effective June 15, 2018 and final rates effective October 29, 2018.

(h) The Rate Base and equity ratio listed is the Company’s view of what was allowed in the case, as there were multiple versions of each disclosed by the parties in the settlement agreement.
